

REYMEL SARDENIA

Taytay, Rizal, Philippines | sardeniareymel@gmail.com | www.cdivus.space

SUMMARY

Computer Science Student and Developer experienced in building web applications, browser tools, and data processing workflows. Highly adaptable to different engineering tasks, with technical interests focused on AI models and automation workflows.

SKILLS

- **Languages:** Python, C, Java, JavaScript, PHP
- **Frameworks:** FastAPI, Laravel, PyTorch, Flask
- **Cloud/Infrastructure:** Docker, Git, Vercel, Railway, Linux, AWS S3
- **Databases:** PostgreSQL, Supabase, MySQL, SQLite, MongoDB

PROJECTS

SkillCheck — Online Examination Platform	June 2026
• Developed the backend architecture for an online examination web app using PHP Laravel and MariaDB.	
Web Blocker and Timer Extension	May 2026
• Built a browser extension that blocks specific websites and tracks user time using pure javascript.	
Environmental Text Summarizer (Research Project)	November - December 2025
• Fine-tuned a FLAN-T5 model for multi-document summarization task using public datasets focused on environmental concerns. • Cleaned, preprocessed, and formatted raw textual data for the training dataset for the model.	
Autocomplete Visualization Tool	November 2025
• Developed a D3.js visualization tool that implements DAFSA and Trie minimization algorithms for memory-efficient autocomplete.	
Polymart — E-Commerce Platform	July - August 2025
• Co-developed the backend for an e-commerce platform using FastAPI, Supabase (PostgreSQL), and AWS S3.	

EDUCATION

3rd year - Bachelor of Science in Computer Science	August 2023 - 2027
Polytechnic University of the Philippines - Manila	
• Computer Science Research Elective • Ongoing research on Bikol Named Entity Recognition.	
Senior High School	June 2021 - June 2023
Golden Faith Academy	
• STEM (Science, Technology, Engineering, and Mathematics) Strand	

ADDITIONAL INFORMATION

- **Awards/Certificates:** Google Certified in Cybersecurity, SEI-DOST Undergraduate Scholar
